

The Reading Project: An Immersive Read

What does this event cover?	A Reading Project is a fantastic way to engage and enthuse students in the power of stories. This year's session will have a particular focus on how you could use a reading project to support transition of students coming back from school closures; as well as being excellent for literacy an immersive read can be therapeutic, and good for health and wellbeing. The session also explores how to run a year group Reading Project including: choosing the right book; ideas and principles; getting buy in from staff, students and parents; tailoring CPD for different staff groups and ways to overcome any logistical challenges.
Who is this event for?	Secondary School teachers and leaders.
