

Small Group Supervision Sessions

What does this event cover?	These supportive supervision sessions will be facilitated by a clinical psychologist. Supervision sessions are confidential and provide an opportunity for mental health leads to bring any work-related cases, situations or challenges that they are struggling with. These sessions can be used to gain further psychological understanding of specific cases or difficulties, guidance around supporting young people with mental health or reflecting on the personal impact of supporting young people who are struggling. Please note that attendees are expected to prepare what they would like to discuss in the session and take part in discussion. This supervision is separate from and different to management supervision. Please make sure you have signed the supervision agreement before the session.
